You talk. SAP listens. Everybody wins.
ASUG Influence – The Voice of the Customer

Customer Engagement Initiative (CEI) Cycle 2

The latest CEI Cycle opened June 3 – take advantage of this chance to leverage ASUG’s collective intelligence and greatly impact the SAP ecosystem.

ASUG members have this opportunity to influence the current drawing board of SAP solutions by participating in one or more of the 60 available focus projects spanning a variety of industries, processes, and technologies.

It's easy to get involved:

1. Get started [here](#)
2. Sign in and use the filter function to quickly see the newest solutions and enhancements SAP plans to release
3. Register for focus groups relevant to your business needs

Only three CEI cycles are available each year for members to get involved.

But hurry. Registration for *this* cycle closes June 28.

Congratulations, Tammy Datri

ASUG BusinessObjects Strategic SIG Volunteer, Tammy Datri, has won a Kindle Fire for her support and efforts in promoting the Customer Engagement Initiative at Annual Conference. Because of Tammy and other ASUG Volunteers, we pre-registered additional members who will receive focus project updates and invitations to get involved in the CEI Influence program.

Customer Connection Update

Simplified log on screen to SAP Customer Connection:

- After July 1, registrants will encounter a simplified [log on screen](#) when accessing the [SAP Customer Connection](#) site, making it easier to influence SAP. User credentials have not changed and Single Sign-On (SSO) will be implemented for automatic log on. Learn more about SSO at [Single Sign-On with SAP Passports](#)
 - New Focus Topic project for GRC Access Control 2013 will be started soon. Please find detailed information on the project's workspace [link](#) on Customer Influence
 - Details to all delivered improvements can be found on the [SAP Improvement Finder](#)
-
